New Silicone Heat Glove Offered by Healthmark

Fraser, MI, November 19, 2015 - Healthmark Industries has announced the Silicone Heat Glove to their instrument care glove line. Made from latex-free silicone, the 16.9 inch and 13.7 inch one-size fits-all Silicone Heat Glove is a conventional option for healthcare professionals performing tasks such as unloading steam sterilizers, washer-disinfectors or dealing with surface temperatures ranging from -40 °F to +464 °F. The protective heat glove can be worn ambidextrously by inserting either hand entirely into the glove with minimal effort. They are available in a shade of light blue, the reusable Silicone Heat Glove is suitable for reprocessing up to 273 °F.

For more information call 800-521-6224 or visit www.hmark.com.
