FOR IMMEDIATE RELEASE:

New Arm Sleeves for Prep & Pack

Fraser, MI, March 20, 2018 - Healthmark Industries is pleased to announce the addition of new styles of Arm Sleeves to its Personal Protection Equipment accessory product line.

AORN guidelines state that arms must be covered when preparing and packaging items in the clean assembly area of sterile processing, which is why Healthmark developed the arm sleeves for healthcare professionals working within the sterilization department. Designed as an alternative to the traditional long-sleeved scrub top or jacket, machine washable arm sleeves are a one-size-fits-most made from 80% Acrylic and 20% Nylon, featuring an elastic gripper to prevent the sleeve from sliding down the user's arm. The sleeves are available in two fits - mid-stretch and wide stretch weave.
