Healthmark Now offers New Single-Use Instrument Tube Brushes

Fraser, MI, November 15th, 2018 - Healthmark is pleased to announce the addition of the Instrument Tube Brushes to its ProSys™ instrument care product line.

Designed as single-use brushes, the Instrument Tube Brushes assist with the cleaning of internal lumens and channels of various sizes. Manufactured to facilitate maximum cleaning performance while ensuring compatibility with the channels of cannulated items, the nylon bristle brush tips connect to a stainless-steel wire and joins to a versatile acetal tubing, which provides adequate debris removal without causing damage.

These new brushes are offered in lengths of thirty and sixty centimeters and have the following different colored shafts that indicate the brush head diameters: White (2mm & 15mm), Black (4mm), Blue (6mm), Green (9mm), and Gray (12mm). The ITB Brushes are available for purchase in a package of thirty.

Visit www.hmark.com or call 800-521-6224 for more information.
