Healthmark Launches Newest Flexible Inspection Scope

Fraser, MI July 30, 2019 - Healthmark is pleased to announce the newest Flexible Inspection Scope added to their Prosys Optical Inspection product line, the FIS-006.

Designed to inspect internal channels of 1.3mm in diameter or larger, the FIS-006 is the ideal tool to visually inspect the internal channels of potentially soiled or damaged item. The flexible inspection scope is 1.18mm in diameter, equipped with a distal tip composed of a light source and camera lens at the end of a 110cm, graduated, black shaft that connects to the included control box, which allows for image capture and recording. The scope provides light, vision, magnification and the ability to document in hard-to-see lumens and crevices not visible to the unaided eye. The starter kit includes the FIS-006, the Windows PC software, USB cable, DVI to HDMI cable, and instruction book in a hard sided carrying case.

Visit www.hmark.com or call 800-521-6224 for more information.
