Healthmark Offers Latex Free Scissor Tests

Fraser, MI July 22, 2019 - Healthmark Industries is delighted to introduce the Latex Free Scissor Test to its ProSys™ Instrument Care product line. Manufactured from synthetic elastomer, the Latex Free Scissor Test is a tool to test the sharpness of scissors.

The Latex Free Scissor Test is a 4.5-inch wide 6-yard roll that is offered in the colors of yellow or red. The yellow roll is .312 lbs., has a thickness of .007 Mil and is for testing scissor blades with lengths less than 4.5 inches. The red roll is .45 lbs., has a thickness of .010 Mil and is for testing scissor blade lengths that are greater than 4.5 inches. Simply unroll to the desired length and make a minimum of two cuts in the test material. Begin by cutting at the middle part of the blade, cutting clearly through the tip. The scissors should cut all the way through to the top of the scissor without catching or snagging.
