Healthmark Offers New Tamper Evident Probe Cover

Fraser, MI, December 17, 2019 - Healthmark is pleased to announce the addition of the Tamper Evident Probe Cover to their Bags & Dust Covers product line.

This cover is designed to keep probes covered to reduce the risk of contamination from the environment during transportation and storage. The 3 Mil single-use 14 x 4.5-inch Tamper Evident Probe Cover is manufactured from low density polyethylene, latex-free and non-sterile. The Probe Cover is sealed on three sides, and has vertical and horizontal perforations, as well as a tamper evident seal to help protect the probe from the environment by keeping the cord outside of the bag.

Visit www.hmark.com or call 800-521-6224 for more information.
