Healthmark Offers New UVC LED Box

Fraser, MI October 8, 2020 - Healthmark Industries is delighted to introduce the UVC LED Boxes to its Personal Protection Equipment (PPE) product line. Both boxes contain UV-C LED bulbs that generate ultraviolet beams with wavelengths of 260-280nm, which are effective in sanitizing personal items, such as phones, keys, etc. UVC-001SK has measurements of 216 x 104 x 71mm, and UVC-002SK has measurements of 302 x 269 x 154mm.

For a limited time only, with the purchase of any UVC LED Box, ten Ultraviolet Indicators (UVI-001SK) will be included at no additional cost. These indicators are a great way to verify the function of the UVC LED Boxes. The package of ten comes with a color change reference guide to interpret the test results.

About Healthmark Industries Co., Inc.
