Healthmark Introduces Whisper UV Air Fan from PURO UV Disinfection Lighting

Whisper Provides Powerful, Continuous UV Air Disinfection Proven to Inactivate Viruses, Bacteria and Other Pathogens Including Today's Coronavirus up to 99.9%.

Fraser, MI December 10, 2021 - Healthmark Industries introduces the PURO Whisper UV Air Fan to its Personal Protection Equipment (PPE) product line.

Designed to provide continuous high-quality UV air decontamination, the 8.8 lbs. Whisper UV Air Fan disinfects up to 2,100 cubic feet of air per hour using high-wattage UV light technology to inactivate pathogens. This results in the reduction of viruses, bacteria, and other airborne pathogens including today's coronavirus up to 99.9%. Manufactured from stainless steel, the 6.38L x 5.98W x 27.16H inch Whisper offers whisper-quiet operation (32 dB) that's perfect for the many environments where quiet operation is desired. The Whisper oxidizes then degrades VOCs when activated by high emission UV-C lamps placed inside the unit increasing indoor air quality with each air exchange.

Additionally, PURO's Whisper UV Air Fan has a 24-hour continuous run time, operates safely in occupied spaces, can easily be mounted to either a wall or ceiling and is available for individual purchase.

About Healthmark Industries Co., Inc.

Since 1969, Healthmark Industries Company, Inc. has developed and marketed innovative solutions to aid healthcare facilities in their delivery of surgical instruments and other lifesaving medical devices to patients. Healthmark Industries' mission is to continue to innovate, continue to support, and continue to serve the healthcare provider industry and support services that make it possible to deliver quality healthcare. About PURO UV Disinfection Lighting

Launched in 2019 in Lakewood, Colorado, PURO® Lighting promotes health and safety by bringing proven and powerful UV light disinfection devices to all indoor spaces where people gather including sports facilities, hospitals, medical and manufacturing facilities, transportation, schools, entertainment venues, office buildings, and much more, all without the use of chemicals. All PURO Lighting products, whether it's our powerful pulsed-Xenon line powered by Violet Defense® technology, or our PURO Air products, providing continuous UV disinfection of air in occupied spaces, can rapidly disinfect any indoor area inactivating up to 99.9% of viruses, bacteria, fungi and more including today's SARS-CoV-2 virus.
